

Today the responsibilities of educating young people about the arts has been left in the hands of families and all too burdened educators.

By reaching out and teaching them about methods of expression and creativity, we can introduce useful innovative options for attaining their goals.

DMC is a locally based non-profit performing arts group of dancers and teachers. Our programs are designed especially for schools and students of all age levels.

Our company of skilled adult dancers will come to your school with an entertaining and educational dance performance. Your students will be introduced to dance, as an art of expression, as we tell our story through movement.
